EDUCATION

PhD in Health Services Research, Health Economics Cognate **Spring/Summer 2027**

Texas A&M University, College Station, USA

Dissertation:

Regulation, Competition, and Hospital Outcomes: Three Studies on U.S. Healthcare Markets

Committee:

Tiffany A. Radcliff (Chair), Murray J. Côté, Sebastian Linde, William M. Sage

MSc in Health Policy, Planning and Financing **November 2022**

London School of Economics and Political Science, London School of Hygiene & Tropical Medicine, London, UK

Thesis:

How Have Causal Loop Diagrams Been Used to Model or Evaluate Health System Reforms?

MA in Creative and Media Enterprises **December 2016**

University of Warwick, Coventry, UK

BA in Exhibition Economy and Management **June 2015**

Sichuan University, Chengdu, China

RESEARCH INTERESTS

Health economics; healthcare markets, regulation, and competition; health policy evaluation; causal inference and quasi-experimental methods; health systems and healthcare delivery; healthcare access

RESEARCH METHODS AND SOFTWARE

Methods	Causal Inference and Quasi-experimental Methods (SCM, DID/Event Study, RDD, IV, ITS, PSM, PSW), Longitudinal & Panel Data Analysis, Multilevel Modeling, Cost-Effectiveness Analysis, Systematic Review and Meta-Analysis, Systems Thinking and Causal Loop Diagramming
Software	Stata, R, Microsoft Excel

Working Papers

Zheng, H. Certificate of Need repeal impact on hospital capital and labor inputs: Evidence from New Hampshire.

Zheng, H., Srivastava, S., & Cote, M. How have causal loop diagrams been used to model or

evaluate health system reforms?

Zheng, H. & Ohsfeldt, R. Cost-effectiveness of home-based telerehabilitation versus outpatient rehabilitation after total hip replacement in the United States.

Blackburn, C. C., **Zheng, H.**, & Radcliff, T. Examining the relationship between 911 public safety answering point closures and rural-urban disparities in ambulance response times.

Research in Progress

Zheng, H. Hospital competition under different state policy environments in the United States. *Dissertation chapter (proposal defended).*

Zheng, H. Examining the relationship between Certificate of Need laws and hospital financial outcome in the United States. *Dissertation chapter (proposal defended).*

Zheng, H., & Aggarwal, A. Elective sterilization utilization following Texas reproductive restrictions. *Manuscript in preparation.*

RESEARCH EXPERIENCE

Graduate Research Assistant **January 2025 – Present**

School of Public Health, Texas A&M University, USA

Supervisor: Tiffany A. Radcliff

- Contribute methodological and analytic expertise to HRSA-funded health services research projects, including study design, data analysis, and manuscript development.
- Conduct health services research on hospital markets, healthcare access, health policy, and emergency care.
- Use quasi-experimental and causal inference methods to evaluate health care policies, interventions and market changes using large healthcare and administrative datasets.
- Contribute to manuscripts, conference abstracts, and research presentations for peer-reviewed dissemination.

Research Assistant **August 2022 – July 2023**

London Business School, UK

- Supported faculty-led behavioral research projects through data entry, data coding, and experiment administration.

Policy Data Contributor **June 2022 – December 2022**

International Public Policy Observatory (IPPO), University of Oxford, UK

- Collected and analyzed global policy responses addressing mental health distress among young people during the COVID-19 pandemic.
- Contributed coded policy evidence to the IPPO public database.

TEACHING EXPERIENCE

Graduate Teaching Assistant **August 2023 – December 2025**

School of Public Health, Texas A&M University, USA

Graduate

PHPM 661 Health Economics, MPH and MHA students, Fall 2023, Fall 2024, Fall 2025

PHPM 661 Health Economics (Online), EMHA students, Fall 2025

- Collaborated on course development and redesign.
- Collaborated on assignment and exam development, grading criteria, and course materials.
- Led selected class sessions and supported student learning through office hours and individualized consultation.
- Supported instructional delivery across in-person and online courses.
- Graded assignments and exams according to competencies.

PHPM 623 Healthcare Finance, MPH and MHA students, Spring 2024, Spring 2025

- Held office hours and provided student support.
- Graded assignments and exams according to competencies.
- Assisted with course administration and student communication.

CONFERENCE PRESENTATIONS

Research done by all parties listed. Conference presentation delivered by Zheng, H.

Zheng, H., & Aggarwal, A. (2026, November). Elective sterilization utilization following Texas reproductive restrictions [Poster presentation]. Accepted for presentation at the APHA Annual Meeting and Expo, San Antonio, TX.

Ochimana, C., **Zheng, H.**, Rodgers, E., Ohsfeldt, R., Ukert, B., Ferdinand, A., & Maddock, J. (2026, May). The impact of insulin copayment caps and coinsurance on insulin use, adherence, out-of-pocket spending, and health care utilization in the United States: A systematic review [Poster presentation]. AcademyHealth Annual Research Meeting, Seattle, WA.

Tian, Y., **Zheng, H.**, Horel, S., & Radcliff, T. (2026, May). Implications of outpatient total hip and knee arthroplasties: A statewide population-based study from Texas [Panel presentation]. AcademyHealth Annual Research Meeting, "Opportunities and Challenges in an Evolving Outpatient Setting: Observation Care," Seattle, WA.

Tian, Y., **Zheng, H.**, Horel, S., & Radcliff, T. (2026, May). Use and implications of outpatient services in total knee arthroplasty [Poster presentation]. AcademyHealth Annual Research Meeting, Seattle, WA.

Zheng, H., Horel, S., & Radcliff, T. (2025). Pandemic policy impacts on elective and non-elective surgical volume [Poster presentation]. AcademyHealth Annual Research Meeting, Minneapolis, MN.

PROFESSIONAL EXPERIENCE

Senior Regulatory Affairs Specialist **March 2020 – January 2021**

Medtronic, China

- Built and maintained working relationships with the China National Medical Products Administration (NMPA) and related regulatory authorities.
- Identified key regulatory issues affecting Medtronic's China business and contributed to the development of China regulatory advocacy strategies. Supported implementation through multiple channels, including comments on draft regulations, research projects, policy forums, and industry association engagement. Coordinated with cross-functional and regional colleagues to address key regulatory issues and promote a more evidence-based regulatory environment.
- Monitored, analyzed, and communicated new and revised medical device regulations issued by NMPA and related authorities. Consolidated internal feedback on draft regulations and provided training on key regulatory updates to local and global stakeholders.

Senior Regulatory Policy & Intelligence Specialist **September 2019 – February 2020**

Daiichi Sankyo, China

- Managed drug regulatory intelligence activities, including the collection, analysis, reporting, and archiving of pharmaceutical regulations and policy updates. Prepared timely regulatory intelligence reports for China Regulatory Affairs, Asia Development, Pharmaceutical Development Headquarters, and other relevant departments.

- Assessed the implications of regulatory and policy changes for company products and business operations, and communicated potential risks to relevant internal stakeholders.
- Established and maintained communication channels with regulatory authorities and industry associations to support Daiichi Sankyo's role as a trusted industry partner and policy stakeholder.
- Contributed to internal responses to new and revised regulations and policies issued by NMPA and its affiliated institutions. Coordinated internal input to ensure that relevant departments were informed and that the company's position was clearly reflected.
- Collected and analyzed successful new product development cases and competitive product information to support regulatory strategy and business planning.

Regulatory Policy & Intelligence Specialist **September 2017 – September 2019**

Regulatory Policy & Intelligence Assistant **March 2017 – September 2017**

Johnson & Johnson, China

- Analyzed pharmaceutical and medical device regulations and policies and prepared regulatory intelligence reports for global and local teams.
- Developed policy recommendations for national and local government authorities and international industry associations.
- Conducted industry surveys, regulatory training, and stakeholder engagement activities related to pharmaceutical and medical device regulation.

AWARDS AND HONORS

3rd Place, 19th Jean Brender Poster Contest, Texas A&M University, 2024

APHA 2026 Student Travel Award, School of Public Health Office of Research, Texas A&M University, 2026

PROFESSIONAL SERVICE

Ad hoc Reviewer **2026–Present**

American Journal of Preventive Medicine

Ad hoc Reviewer **2025–Present**

Social Science & Medicine

Ad hoc Reviewer **2025–Present**

Journal of Health Care for the Poor and Underserved

Research Committee Student Representative **2024–Present**

School of Public Health, Texas A&M University

Faculty Search Committee Student Representative **2024, 2026**

Department of Health Policy and Management, School of Public Health, Texas A&M University

Student Representative of Virtual Site Visit for the Proposed Ph.D. Program **2026**

School of Public Health, Texas A&M University
